

## REQUESTING AN INSPECTION

Periodically throughout the construction process, the homeowner/contractor has to request an inspection before the work can proceed. The homeowner/contractor must request an inspection. There are two ways to request these inspections:

1. Call (804) 751-4444, the IVR (Interactive Voice Response) system: an automated system whereby you can request an inspection,
2. Call (804) 751-4990, to speak to a customer service representative, and request your inspection.

Use the code reference numbers below to specify which inspection you are requesting.

### INSPECTION CODE TABLE

#### Structural

Footing	100
Foundation	101
Floor Slab	102
Drainage/Waterproofing	103
Fireplace Throat	104
Framing	106
Insulation	107
